

## **Elements of the Better Life discipling process**

- (1) a relational orientation to following Jesus  
that understands the cost of discipleship
- (2) diagnosing the ways our lives are broken  
engaging an intentional, collaborative process of restoration
- (3) an intimately relational approach to making disciples  
as opposed to a curriculum base or group approach
- (4) a friendship approach to evangelism  
as opposed to a memorized sales presentation
- (5) a "God's revolution" understanding of mission  
as opposed to program and organization
- (6) a multiplication, fruit-bearing mindset in making disciples
- (7) a broader understanding of salvation / being God's people  
that sets it in the whole-Bible context of kingdom justice
- (8) diagnosing the ways our communities are broken  
and engaging an intentional, collaborative process of restoration
